ABOUT EDUCATION

Postponed Meeting of School Board Yesterday.

MRS. DUMAS DECLINES TO CHANGE

Several Applications from Teachers Abroad.

Mr. Shanks Declines an Offer.
Teacher at Reform School
Gives Satisfaction.

At the regular weekly meeting of the Board of Education, held yesterday, there were present President Smith, Mrs. B. F. Dillingham, Mrs. E. W. Jordan, Deputy Inspector-General Scott and Professor Alexander.

Professor Alexander reported having made a plan to buy a small piece of land in Pearl City, near the railroad, and close to what is known as Third street. Arrangements had all been made by which an acre and a half could be obtained, and when Professor Alexander went to see the woman who owned the small piece of land which would complete the acre and a half, it was found that she had departed this life. The matter was referred to a committee.

Deputy Inspector-General Scott reported that Mrs. Dumas would not reconsider her decision of severing her connection with the High School. Mrs. Alice Smith was appointed in her place for the remainder of the term, and R. Law was chosen to take Miss Smith's place.

The Deputy Inspector-General further reported that Mr. Shanks had declined the appointment to Wainiha. Miss McCord was appointed to fill that position.

Maemae School will be opened on Monday morning.

Mr. Scott's request to give him permission to employ one transient officer was granted.

A letter from R. B. Bryan of Aberdeen, Wash., asking for information regarding educational matters and the coffee industry, was read. Mr. Bryan said that he intended locating here if possible.

A letter from a native, asking to be appointed school police at Kalaooa, was read.

Miss Adeline M. Loehr was the name signed to a communication, asking for a position as teacher in the schools here. She is a graduate of Stanford University and the St. Louis Normal School, and sent from California a number of communications recommending her as a first-class teacher.

J. W. Smith of Waiawa asked that his son, Vivian, be appointed his assistant. The matter will not be acted upon until Mr. Scott can look into the accommodations of the school building at that place.

Joseph Kealalo applied for the position at the Pahoehoe School, which he said he had learned would soon be vacant. The Secretary was instructed to write Kealalo, informing him that the Board had received no news of such action.

A communication from W. W. Hall, asking the Board to consider the name of Miss Stinson of California, for a position in the schools here as teacher or as governess in some private family, was read. Mr. Hall's communication was on behalf of some business acquaintances in California. The matter was referred to the Teachers' Committee.

Mr. Scott announced to the Board that the present teacher at the Reform School was giving good satisfaction.

At 4:45 the Board adjourned, to meet again next Thursday afternoon.

AS SEEN IN GERMANY.

Campaign in the United States as Viewed From Berlin.

BERLIN, Oct. 25.—The progress of the Presidential campaign in the United States is watched with the keenest interest, though more from a financial point of view than with any idea of contrasting the social positions occupied by the candidates. It is difficult, however, to get as yet, even from the leading newspapers, which devote columns of space to the subject, an intelligent appreciation of the situation. Voluminous letters are received here by mail conveying to Germans the developments of the struggle in which so many millions of their countrymen are interested, but few of the newspapers here follow an intelligent line of argument in discussing the questions which the campaign comprehends.

The "Vossische Zeitung" publishes an article, notable among the others, in which it embodies the general German notion of the situation.

The "Vossische" quoting from the New York "Herald Tribune" in regard to the platform upon which Mr. Bryan is making his campaign, proceeds to argue that neither the principles of the currency nor that of the

tariff especially inspire Mr. Bryan and his followers, who, the paper says, simply strive to carry themselves along the old lines of belief that the spoils belong to the victors.

The article concludes by saying that neither the victory of McKinley nor the success of Bryan can ultimately affect the economic movement in the United States, which depends upon causes far beyond the struggle which is now taking place between the great political parties of America.

The paper also ridicules the rumors which have been current in the columns of the English papers furnished by their American correspondents, and which have been reproduced here, that the situation in the United States is such at the present time that a very narrow issue could involve civil war, and says that the Germans, comprising a considerable part of the American populace, would at all events accept the result of the election without the slightest dream of revolt against the voice of the majority as expressed by the suffrages of the people.

The "Kreuzzeitung" is rather inclined to support Bryan against the "sound-money" men, and denies that his speeches can be construed as a menace of rebellion, as his opponents have alleged. The paper, however, condemns the Bryanite suggestion favoring repeal of the civil services reform enactments of Congress and concludes by saying that the German Electors in the United States seem to be again desirous to distinguish themselves as "the friends of their enemies, for that is what they do when they hold the stirrup for the Republican to mount."

WATCHING THE POLLS.

Chairman Butler Will Issue a Circular to Bryan Supporters.

WASHINGTON, Oct. 22.—Senator Marion Butler of North Carolina, Chairman of the Populist Committee, is said to be about to issue a circular addressing the supporters of Bryan to "keep their eyes open and to place cool men on guard," to watch and expose a game which he says the Republicans are contemplating in the Middle West States and which he describes as follows:

The plan as now revealed is for so much money to be put into the hands of township or ward managers, and so much to be given for a special Republican gain. It has been found impossible to buy enough individual votes to carry the election, and the plan forecasted is to be the one. Instead of the voter, the poll itself is to be tampered with. Our information is that this plan has already begun in Ohio.

Chairman Butler has not yet found Mr. Watson's letter of acceptance.

A VALUABLE WORK

Brief History of Hawaiian Monarchy.

With Chapters on Recent Revolutions Written by Prof. W. D. Alexander.

The Hawaiian Gazette Company has just published a history of the later years of the Hawaiian monarchy and revolution of 1893, written by Prof. W. D. Alexander, to which is added a brief history of the revolution of 1895 from the pen of W. R. Farrington.

The book is filled with valuable and authentic information and is free from any severe coloring. The illustrations are as perfect as the well-known Crisp Engraving Company could make them and their reputation for excellence of work is known everywhere. The half-tones and photographs are from photographs and original sketches.

The entire edition of this book has been purchased by the Hawaiian News Co. and T. G. Thrum, and is now on sale at those stores for \$1.50 per copy. As a book of record it compares favorably with any publication ever issued in Honolulu. Following is the table of illustrations:

Portrait of Kalakaua.
Officers of Citizens' Guard.
Ex-Queen Liliuokalani.
J. Richardson and Equal Rights League.
The Wilcox Cabinet.
C. B. Wilson and Members of Parker Cabinet.
Hon. H. P. Baldwin.
Capt. Whitte and Hon. J. L. Stevens.
President S. B. Dole.
View of Honolulu.
Honolulu Fire Department.
Col. J. H. Soper.
The Annexation Commissioners.
The Naniwa and the Boston.
The Oahu Railway.
The Princess Kaiulani and others.
Col. J. H. Blount and His Ex. A. S. Willis.
The Cabinet, April, 1893.
Leading Royalists.
Honolulu Postal Service.
Proclamation of the Republic, July 4, 1894.
Members of the Constitutional Convention of 1894.
The Annexation Club.

The number of persons to the square mile in England is placed at 480; in the United States at seventeen.

HONOR TO JAPAN

Brilliant Assemblage at Japanese Legation.

MANY CITIZENS PAY RESPECTS

Diplomat's First Reception in Honolulu.

Entertained in Regal Style—Mrs. Shimamura's Hospitality—Assisted by Society Ladies.

The reception in honor of the birthday of the Emperor of Japan, given at the home of H. I. J. M.'s Consul General Shimamura from 2 to 5 yesterday

CONSUL GENERAL AND MRS. SHIMAMURA.

afternoon was one of the most brilliant affairs of its kind ever given on the Islands. While there was, of course, a predominance of the Japanese in both the spirit of the occasion and in the decorations of the various parts of the house and grounds, still there was enough of another spirit to make all those who were so fortunate as to attend to feel perfectly at home and at one with the object of the celebration.

As already detailed in the columns of this paper, the decorations throughout the yard and house were beautiful, the paper flowers taking one immediately to the sunny land of Japan by means of their perfection of imitation and the artistic manner of their setting.

The house was most comfortably arranged for the accommodation of the guests of the afternoon, with chairs distributed here and there, together with good things to eat and drink on all sides.

Out in the yard there was a continual succession of fireworks, which all the guests had a chance to witness, while close by was the Hawaiian Band, giving forth its delightful music to all.

Consul General and Mrs. Shimamura stood in the large drawing room close to the hallway, welcoming their guests and making each one feel at home by a hearty hand-shake and an assurance of hospitality. Next to them were the following ladies, who through their clever manner of receiving the guests added much to the charm and enjoyment of the afternoon: Misses Kate McGrew, Dulany, Ella Stansbury, Agnes Judd, Carter (3) and Campbell.

Among those present were President Dole, Mr. and Mrs. W. O. Smith, S. M. Damon, Chief Justice and Mrs. Judd, Mr. and Mrs. John W. Foster, Sir Robert Herron and Lady Herron, Mr. and Mrs. F. A. Schaefer, Mr. and Mrs. Thos. Rain Walker, Mr. and Mrs. Ellis Mills, Mr. Justice Frear and Mrs. Frear, the Rev. Alexander Mackintosh and Mrs. Mackintosh, Postmaster General and Mrs. Oat, Mr. and Mrs. W. F. Allen, Rev. Douglas Putnam Birnie and Mrs. Birnie, Rev. C. M. Hyde and Mrs. Hyde, Mr. and Mrs. Sydney M. Ballou, Lieutenant and Mrs. N. R. Harris, Ensign and Mrs. F. H. Brown, Prof. and Mrs. Maxwell, Dr. and Mrs. George Herbert, Dr. and Mrs. Chas. W. Day, Mr. and Mrs. H. W. Schmidt, Mr. and Mrs. W. Hall, Rev. and Mrs. O. H. Gulick, Mr. and Mrs. W. O. Atwater, Mr. and Mrs. M. Louissou, Mr. and Mrs. E. R. Adams, Mr. and Mrs. T. May, Mr. and Mrs. J. A. Gilman, Mr. and Mrs. Willard Ives Warriner, Mr. and Mrs. Jas. Hyde Pratt, Mr. and Mrs. F. W. Damon, Mr. and Mrs. Abram Stephanus Humphreys, Mr. and Mrs. Arthur Burdette Ingalls, Mr. and Mrs. Charles Creighton, Mr. and Mrs. B. F. Dillingham, Mr. and Mrs. H. A. Parmelee, Mr. and Mrs. Pierre Jones, Mr. and Mrs. F. B. MacStocker, Mr. and Mrs. George Boardman, Mr. and Mrs. W. C. Weedon, Mr. and Mrs. Russell D. Walbridge, Dr. and Mrs. George P. Andrews, Mr. and Mrs. J. O. Carter, Mrs. J. S. McGrew, Mrs. George R. Carter, Mrs. Edward R. Adams, Mrs. Robert Catton, Mrs. Alatau Atkinson, Mrs. Harry Stanwood Dana, Mrs. John K. Wilder, Mrs. C. H. Kluegel, Mrs. Alice Hutchinson, Mrs.

WAITING RESULTS

Result of Election May Not be Promptly Known.

CHANCE OF SYSTEM THE CAUSE

How Advance of Wheat is Accounted For.

Broker Gives His Views—Matrimony in High Life—Italy's Crown Prince Marries a Princess.

WASHINGTON, Oct. 25.—The Presidential election of Tuesday, November 3d, will be held under conditions which have never before prevailed, and which will render the official count a matter of difficulty and unusual delay.

Since the last Presidential election almost every State which had not then adopted the Australian ballot system has, by State enactment, prescribed some form of secret ballot, either based on the Australian plan or closely resembling it. The only exceptions are Georgia, Louisiana, North Carolina and South Carolina. In the first three States named the old open ballot system prevails and the election machinery is in the hands of the State authorities. In South Carolina there is what is called a "reform ballot." In nearly all the other States blanket ballots will be cast, and in many of them the count will be complicated by the fact that State, legislative and county nominations are all printed on the same ballot with the names of the Presidential electors. Connecticut has an envelope system and New Jersey prints each party ticket on a separate ballot.

Should the election be in any way close, it is, therefore, quite possible that it may be twenty-four hours, or even forty-eight hours, after the polls are closed before the result is known. In States like Nebraska, for instance, where, according to some estimates, there may not be a margin of 5,000 votes either way, it will be impossible to arrive at a correct judgment until all the back counties are heard from. The polls in the cities of some States close at 4 p. m., but in the country districts keep open until 6, and with a Governor, Legislature and county officers to elect, all on one ballot, it will take at least twenty-four hours to complete the count.

Some idea of the general trend of votes in Ohio can probably be obtained from the result of the counties in which Cincinnati and Cleveland are respectively situated, and these results will probably be known comparatively early.

The two last Presidential elections have been singularly free from uncertainty. It was known at 10 a. m. on election day in 1888 that Mr. Harrison had defeated Mr. Cleveland, and it was known with equal certainty that Mr. Cleveland had defeated Mr. Harrison. But in the election of 1884, when Mr. Cleveland defeated Mr. Blaine, the official result hung in doubt over the State of New York for days.

The fusion tickets will add a further element of difficulty in the Presidential count this year.

Fusion has been arranged between the Populists and the Democrats on the electoral ticket in every Democratic State but Tennessee, Mississippi, Georgia, Alabama, Florida and Texas. In several of the Southern States, while there has been no formal fusion between the Republicans and Populists on State tickets, local arrangements have been made that amount to fusion, and will have more or less to do with the result.

The following States will elect Governors on November 3d: Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York (part), North Carolina, North Dakota, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

The following will elect Legislatures: California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky (seven vacancies), Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York (part), North Carolina, North Dakota, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

IN THE OLD WORLD.

How the Advance in Wheat is Accounted For.

LONDON, Oct. 25.—At the Baltic today wheat opened 6d under yesterday's price, but values stiffened later, holders demanding yesterday's top prices. There was little doing, however. A press representative had an interview with a broker who does the largest business in wheat on this side of the Atlantic in regard to the situation. He said in substance: "In a half natural, half speculative course, we have only followed the lead

set by the United States, where speculators are very active. There is a scarcity, in spite of the fact that England had a big crop, that induced speculators to rush in. Russia's crop is poor and Austria's practically nil. But what is of great moment, consumers having large advance milling contracts also rushed in to secure supplies, even at top prices, which today are 20 per cent higher than last week.

"The California wheat sent to India is as yet only a drop in the bucket, but the moral effect of the movement and of the impending famine in India have been very great. Of course, if rain falls in quantities California wheat will not be wanted, but I doubt this, and coupled with the Viceroy's grave telegrams it naturally affords speculators the real element of uncertainty they delight in.

"Still, this does not account for more than half the rise. The balance is solid advance, owing to shortness of supplies. We shall follow the United States closely, however. The rise in freights has at all times been in advance of the rise in wheat, and the demand for steamers is most brisk. The closing of the Sea of Azov early in December will free numbers of ships to load elsewhere, though at present the Azov boats are loading as rapidly as possible."

MANTOBA SCHOOL PROBLEM.

Final Settlement of the Question Not Yet Reached.

WINNIPEG, Oct. 20.—It is learned that a hitch has occurred in the conference for the settlement of the parochial school question, now in progress in Ottawa. Premier Laurier and the delegates from Manitoba had agreed to allow a half hour a day in each school for teaching religion by the Roman Catholics, the belief being that this concession would settle the difficulty.

It might have settled it so far as the Roman Catholics were concerned, but when the Protestant leaders heard of it they raised a big row. Such a concession they declared to be a violation of the national school principles. So the Manitoba Premier, Mr. Greenway, had to withdraw from this agreement, and now, as far as can be learned, no other scheme can be devised, and the settlement is as far off as ever.

ARCHBISHOP IRELAND.

Has Not Been Censured and Renews All His Statements.

WASHINGTON, Oct. 20.—Archbishop Ireland today authorized the following statement concerning the published dispatches under a Rome date, stating the Pope was vexed with the Archbishop for the position he has taken on the political situation:

"There is no truth whatever in the statement. What the purposes are of those who make this and similar statements I do not know. As to my letter, published a week ago, so far as the political situation, it remains, so far as I am concerned, in full force. Developments of political matters, so far as observed by me, confirm me in all the statements I then made and lead me to renew them today with yet stronger emphasis."

UNIFORMED EVANGELISTS.

American Episcopal Church to Take a New Departure.

NEW YORK, Oct. 20.—The Herald says this morning: The Protestant Episcopal Church of the United States is about to organize an army of uniformed evangelists, who will be under military discipline and work with the Salvation Army and the American Volunteers in the field of Christian labor among the poor. This important project was decided on yesterday at a meeting of prominent clergymen from different parts of the country, held in the church mission house.

ANGLO-SAXON FEDERATION.

Scheme for Assuring the Peace of the World.

MELBOURNE, Oct. 20.—Lord Brassey, the Governor of Victoria, in a speech today on Imperial federation, said: "It would be wise, if possible, to bring America into a grand defensive league of the Anglo-Saxon races, which would effectively secure the peace of the world."

SWISS ELECTIONS.

Not Much Change in the Composition of the Council.

BERNE, Oct. 25.—The elections for members of the National Council for a term of three years were held today. The National Council, consisting of 147 delegates of the Swiss people, is the second chamber of the Federal Assembly. The strength of the two parties is not materially altered by to-day's election. The radical democratic majority gained five members from the Protestant Conservatives and the Socialists gained one.

MORE WAR SHIPS.

England Increasing Her Force in American Waters.

MONTREAL, Oct. 23.—In addition to the torpedo-boat destroyer Darling, which is about to re-enforce the British North American squadron, it is further announced that during the coming winter the battle-ship Renown, 14 guns, 14,150 tons and 12,000 horsepower, and cruiser Flora, 10 guns, 4,360 tons and 9,000 horsepower, will join the squadron. The regiments in garrison at Halifax are also to be brought up to their full war strength. The measures are the cause of much comment.

Drought in South Australia.

ADELAIDE, S. A., Oct. 22.—A drought has occurred in the northern part of South Australia, as a result of which the harvest is a total failure. Numerous farmers are destitute.

Steamer Arago Wrecked.

MARSHFIELD, Ore., Oct. 20.—The steamer Arago lies on the ocean's bed near the jetty on the north side of the en-

trance to Coos bay tonight, with nothing but the masts projecting above the roaring waters, and the beach is strewn with fragments of the wreck. At least twelve men found watery graves in the breakers on the bar when the steamer went ashore at 8 o'clock this morning.

BIG TRANSFER OF WINE.

Nearly Three Hundred Thousand Gallons the Amount.

SAN JOSE, CAL., Oct. 24.—A bill of sale was placed on record today for the transfer of a lot of wine of this year's vintage to the California Wine Association. This includes 17,000 gallons from Louis Deement, 23,000 from John Snyder and 250,000 from Casa Delmas.

Concessions to Japan.

PEKING, Oct. 23.—The return acceptance by Japanese of the Chinese rendering of the clause of the Baku treaty regarding Japanese factories in China has been received. Japan is granted land concessions in Tien-tsin, Shanghai, Hankow and Amoy.

True Bill Against Lady Scott.

LONDON, Oct. 20.—The grand jury today found a true bill against Lady Scott, mother-in-law of Earl Russell, who is charged by the latter with criminal libel, in conjunction with two young men, who were arrested with her on the same charge.

Archbishop of Canterbury.

LONDON, Oct. 23.—The Right Rev. Frederick Temple, Bishop of London, has been appointed Archbishop of Canterbury and Primate of All England in succession to the late Most Rev. Edward White Benson.

STRONG ENGLISH WORDS.

When a person says "I suffered excruciating pain," he expresses a fact in the strongest words afforded by the English language. The word "excruciating" comes from *crux*, a cross, and signifies an intensity of agony comparable only to that endured by one who undergoes the barbarous punishment of crucifixion. There are some diseases which, for a time, cause pain of this acute and formidable nature. To find relief for it, when possible, is at once the impulse of humanity and the studious desire of science. Two brief examples may indicate what success is attending the effort to both comfort and cure cases of this kind.

"Nearly all my life," writes an intelligent woman, "I have borne the burden of what appeared an incurable illness. I always felt heavy, weary and tired. My appetite was poor, and after eating I had a *cruel pain* at my chest and between the shoulders. Frequently the pain was so intense that I was impelled to loose my clothing and walk about the room. My nerves were disordered and irritable, and I was, consequently, easily disquieted and upset. My sleep was habitually bad, and I seemed none the better for spending a night in bed. Eating but little, my strength waned of necessity, and I came to be very weak. For a long time I got about feebly and with difficulty.

"In August, 1887, I had an attack of rheumatic gout, which gave me the most harrowing experience of my life. The complaint took its usual course and refused to yield to the ordinary treatment. Through the partial failure of the liver and kidneys, dropsy set in and my legs and feet became puffed and swollen. I suffered *excruciating pain* and was confined to my bed for *thirteen weeks*. Remedies of every description were tried, but to little purpose.

"My brother, visiting me one day, said he had been cured of an attack of dropsy by a medicine called Mother Seigel's Syrup. I got a bottle from Mr. Hewitt, the chemist, in Seven Sisters' Road, and after taking it felt a trifle easier. I continued taking it, and soon the pain and swelling abated. I could eat without pain or inconvenience, and by a few weeks' further use of the Syrup I was not only free from my local ailment, but felt better than I ever did in my life before. Since then I have enjoyed continuous good health, taking a dose of Mother Seigel's Syrup occasionally for some transient indisposition. You are at liberty to publish my letter. (Signed) (Mrs.) Elizabeth Rogers, 42 Plevna Road, South Tottenham, London, September 13th, 1895."

"In January, 1892," writes another, "I had an attack of influenza, and was confined to my bed for *eighteen weeks* thereafter. Subsequently I was very weak and could get up no strength. What little food I forced down (having no appetite) gave me *excruciating pain*, so that I was afraid to eat. I came to be exceedingly weak and had frequent attacks of dizziness. I was worn almost to a skeleton, and none thought I would recover.

"In June, 1892, Mr. Smith, a friend of ours, recommended me to try Mother Seigel's Syrup, which I at once procured of Mr. George Coombs, the chemist in Hucknall. After taking it for only one week I felt greatly benefited. I could eat better, and food agreed with me. Continuing with the Syrup I grew stronger and stronger, and soon felt even better than before I was attacked by the influenza. You are free to print this statement if you wish to do so. (Signed) (Mrs.) Ruth Halliday, 44, High Street, Hucknall Torkard, Nottingham, March 19th, 1895."

Intense pain may or may not indicate urgent danger to life, but it is hard to bear, and very exhausting just the same. In cases of rheumatic gout (Mrs. Rogers) the pain is caused by a poisonous acid in the tissues, originally produced by the decomposition of food in the stomach—indigestion of dyspepsia. The same poison acting on the liver and kidneys creates the other symptoms mentioned. In the case of Mrs. Halliday the ailment was dyspepsia, which in the first place invited influenza, and then remained to torment her. It is best and easiest to prevent pain by using Mother Seigel's Syrup immediately when the slightest illness appears.

Now Ready.

HISTORY OF THE REVOLUTION.

After passing through various vicissitudes which publishers alone can appreciate, the "History of the Late Years of the Hawaiian Monarchy and the Revolution of 1893" has been placed at the disposal of the public. This book contains a carefully compiled review of the reigns of Kalakaua and Liliuokalani, the events leading up to and following the revolution which marked the downfall of monarchical rule in this small, though important, nation of the Pacific. The fact that the work is written by Prof. W. D. Alexander is a guarantee of its authenticity and the unbiased interpretation of public men and public measures.

In his preface Prof. Alexander says: "The writer, while not professing to be neutral, has honestly striven not to extenuate aught or set down aught in malice, but to state the facts as nearly as possible in their true relation, and in their just proportions. The official documents on both sides bearing on the case are given in full, including the report of Col. J. H. Blount to the President of the United States, and the report of the Senate Committee on Foreign Relations, drawn up by Senator Morgan of Alabama." This modesty is characteristic of the author, and a perusal of his work proves conclusively that he has succeeded in giving to the people of Hawaii a brief, clear and dispassionate history of the Revolution of 1893 and the events that led up to it. In dealing with the action of men who attempted to maintain continued misrule he has been particularly careful to give the best interpretation possible and allow honesty of conviction to those who were undoubtedly misguided and subject to the machinations of unscrupulous politicians.

The review of the "Affair of 1895" is what it pretends to be—a brief sketch of the principal events of that revolt.

The portion from Prof. Alexander's pen cannot fail to become one of the standard historical works of Hawaii, and will prove a valuable acquisition to the libraries, not only of our own people, but of those in all lands interested in the progress and development of the political life of nations of the Pacific.

AN ENDOWMENT NEEDED.

In the current issue of The Friend, Rev. J. Leadingham calls attention to the needs of one of the most important religious powers in the country, the North Pacific Missionary Institute. The question is asked, shall this Institute have an endowment? and in his article, which occupies several columns, Mr. Leadingham places before the public in concise form how vital it is that the theological school should have increased funds to carry forward the work and more completely fulfill the objects of the institution.

At present the school is being carried on by funds received from the American Board and such contributions as are received from time to time by local friends and missionary organizations. While the amount realized is better than nothing, it does not allow the expansion which the field of labor offers. The missionary workers are constantly handicapped and kept within narrow boundaries, which is unfortunate, to say the least, in this land that has been and always will remain a bright star in the crown of missionary labor. With the American Board carrying on

its work on a much reduced basis, and the Hawaiian Board struggling to keep expenses within the limit of its income, the prospect for narrowing the work of this missionary institute stares its supporters in the face.

As Mr. Leadingham well says, If this branch of "Protestant work which has been the dominating religious influence in past years, is to be carried to a successful issue, there should be enlargement and strengthening of forces" in the religious education in the school and church. A stable government and a high degree of social order are possible only where the principles of morality are firmly established on a firm moral basis.

The church is the great nursery of morality. Where the church has a commanding place the foundations of society are always secure. To gain this place the church needs able and well trained leaders—men who can command confidence and respect among the people.

In the training which it furnishes to these leaders of the churches, the theological school affects the moral and religious life of the country. It holds the same relation to the ministerial profession that the law school does to the legal profession, or the medical college to the practice of medicine. A well trained ministry is peculiarly necessary at the present time for the Hawaiian Islands. Everything is in a transition state, and a strong ministry is needed, which can hold to the good which has been achieved in the past and make it effective in the new order of things which is to come. The only way to control the future is to mold the influences which are now shaping it. Much benevolent and philanthropic work is being done here in school, kindergarten and in other ways, whose influence will be largely lost unless it is continued and directed into proper channels, by some centralizing agency like the church. This can only be done by such churches as have a well trained and active pastor at their head. The appeal of the Theological school for aid to do its work should come home to every one who has the welfare of the country at heart. It is for the best interests of all classes to support such an institution.

GIVE PUPILS LIBERTY.

An Eastern exchange remarking upon the superiority of Prussian schools over those of New England, gives as the cause the military discipline maintained in the former. To the rigid obedience of the Prussian pupil, his willingness to endure restrictions imposed, and his readiness to put up with plain surroundings, is attributed the higher plane of Prussian institutions. There may be more or less sound principle in this argument, but it is safe to say that to average the Prussian discipline with the New England laxity would produce a result superior to either. It is not true that pupils will make the most of themselves when kept with the nose to the educational grindstone, by sharp military rule. The pupil who fails in his examinations in Germany is ruined for life as a professional man, while the young American can be coached and padded and crammed until he succeeds in gaining enough knowledge to scratch through. These are two extremes, but more pupils are liable to be injured by the former system than the latter. There are thousands of boys and girls to whom one failure is a lesson which spurs them on to make more honest and strenuous efforts in the second trial. It cannot be beneficial for the pupil to feel that in consequence of one unsuccessful attempt he is forever barred from the opportunities open to his more brilliant but not more studious fellow.

What hurts the discipline in the American schools, after which our

own are copied, is the interference of parents who get an idea that their children are being abused. In this respect the American system could be improved not a little. When the parent takes issue with the pupil against the teacher, the latter might just as well go out of business for all the good that may be derived from his instruction. Children, and their parents as well, ought to be made to understand that while in school the teacher is supreme and there is no appeal except in cases of gross mismanagement, which will quickly come to the attention of superiors without the parents taking a prominent hand. There is no occasion to sigh for military rule in schools, or casting out from the van of progress the dull pupil who needs assistance. Children should be urged to make the most of their natural capabilities. They should be encouraged and led, not forced by whipping post discipline.

CANAL CONSTRUCTION.

Opponents of the construction of the Nicaragua canal seem to think they have won a point in the failure of the Kiel ship canal to come up to the expectations of the promoters. When that waterway connecting the Baltic and North seas was built it was assumed that a certain per cent of all the traffic going up the Baltic would make use of the opportunity offered for shortening distance. The report lately printed shows that the usage has only been twenty per cent of what was estimated, and consequently a serious deficiency is noted in the estimated income. This has been a sore disappointment to the German Emperor, who opened the canal with so much display. The results in this instance, however, are not such as to cause any discouragement among prospective canal builders. It simply demonstrates that ship canal construction is a scheme that should not be undertaken without careful preliminary scrutiny.

There is absolutely no comparison between Emperor William's venture and the prospective Nicaragua or Panama project. Traffic will not readily desert the old channels unless a marked advantage is to be gained. The cutting of the Western continent in half is better compared with the Suez canal, the success of which was almost instantaneous. The Kiel canal improved the waterways of the North seas, while the Suez has practically revolutionized the trade conditions between Europe and Asia, and the same conditions would undoubtedly follow the joining of the Atlantic and Pacific in the Western hemisphere.

A San Francisco pastor recently told his congregation: "What this country has most to fear is not the crime that is rampant, but the decency that is languid." If more people could realize the force of this sentiment, there would be far less crime in the world. The average human being is prone to let well enough alone and wink at the slight evidences of immorality that passes under his nose every day in the year. Moral weeds, if let alone, flourish wonderfully, and the growth is so gradual that the ruling majority do not realize the dangers of the situation until the whole social system is filled with a network of corruption which can only be eradicated by supreme effort.

The general outpouring of citizens who called at the Japanese Consulate on Tuesday ought to leave no question as to the high esteem in which the foreign residents hold the ruler of the Japanese Empire. While racial and national differences exist to a greater or less extent, the people of this country are never tardy in extending the proper courtesy and respect due its foreign repre-

sentatives. There is, after all, a happy relation between Hawaii and the progressive little nation of the Orient, and Consul-General Shimamura was indeed fortunate in giving an opportunity for all nationalities to demonstrate their good will toward Emperor Mutsu-hito. When Japan began to step out into the commercial world Hawaii was one of the first nations to receive consideration, and her citizens given special privileges in a country which hitherto had closed its doors to the advances of foreigners. The people of Hawaii offer hearty congratulations and best wishes for the healthy progress and steady advance of Japan in its commercial and political development.

The man who says advertising does not pay, while once listened to, is now put down as among those who live in the sweet oblivion of the past. But the energetic, money making business man does not have to be lectured on the subject. In fact, this latter class have made advertising so much a portion of their business, and raised the standards to such a high plane that now Dame Fashion is taking a hand in the work and making advertising studies a fashionable fad. A young Boston lady set the ball rolling by entertaining her friends at an advertising evening. Portions of well known "ads" appearing in newspapers, magazines and street cars were distributed among the guests. From the pictures or striking lines of the advertisements the guests were to recall the entire wording as it appeared in the publications, the prize going to the one giving the greatest number of correct answers. The young Boston lady is to be congratulated upon having picked up such a sensible method of amusing an evening company. Let the good work go on.

One of our evening contemporaries takes the plebiscite howl of a few oppositionists in a serious vein. There is really no cause for this. The men who are booming the scheme can be numbered on the two hands, and their influence has an effect upon perhaps one hundred men in the country. The only thing these so-called oppositionists want is something they do not at present possess. Give them the full desire of their hearts today, and tomorrow they will have something new to cry out about. They are like children who find amusement in marching up a hill and down again. And without exception they come down from their high horses when faced with anything in refutation of their claims and statements. The country is still safe, and C. Willie Ashford will summer for several more seasons without the vale of the Paradise of the Pacific.

It requires no lengthy article to convince the public that the Board of Health is in duty bound to make immediate preparations for increasing and improving the accommodations at the insane asylum. Some time ago this paper published an interview with a prominent physician, setting forth the unfortunate methods for the reception and care of the mildly insane patients, all of which is necessitated by the lack of proper accommodations at the hospital. These unfortunate people ought to receive more consideration in the shape of more liberal expenditure of public funds. With the present crowded condition it is impossible for the attendants to carry on their work properly, though their intentions and efforts are the best.

The announcement that President Cleveland will not recognize the Cuban patriots until there is some concerted action on the part of other nations puts Cuba on the plane with Armenia. One hopeful view of the situation is that the treasury of Spain is fast becoming

Good Shoes Have More Sole

Than many men have, and Good Shoes get their reward—not by immortality, but by being worn by the Good People of the land.

We sell only the Good Kinds of Shoes because we have only the Good Kind of patrons. We couldn't sell the trashy makes, even if we did carry them in stock. And that fact makes it certain that whenever you come here, you are going to get the right sort of footwear, and hence our ever-increasing business.

The Manufacturers' Shoe Co.

EXCLUSIVE SHOE DEALERS.

ing depleted, and her soldiers sulky, while the Cubans are being liberally supplied with men, money and arms from the United States, and appear to be able to keep up the fight for several years more if necessary. Patriotism will outlive paid fighters any day, and the Cubans are fortunate in not having opposition from the powers, although unable to obtain direct assistance.

It is with feelings of gratitude that the people of Hawaii learn that this mundane sphere stands in no danger of a collision with Prof. Falk's comet, which has been credited with intentions of causing a serious rumble about November 13. Hawaii has passed this year without a revolution and without cholera, and it would really be a national woe if wandering meteors should come in at the last moment and disturb the blissful peace and quiet of the year.

A society having for its object the protection of elephants is one of the most recent organizations formed in Paris. While the society will probably furnish good subjects for cartoonists, statistics show there is plenty of good work for it to do. At the present rate of destruction it is estimated that the African elephant will be entirely exterminated in fifteen years, all of which is due to the greed of ivory merchants and to some extent to heartless sportsmen.

Some time ago it was announced that W. R. Hearst, proprietor of the San Francisco Examiner and New York Journal, was to establish a new paper in Chicago and give the pork packers points on up-to-date journalism. It now appears that Mr. Hearst has actually hired two pages in the Chicago Record to use during the election. Hearst always was a shrewd young man. His Chicago venture will probably go no further.

Mayor Pingree has been put down as a "queer bird" because he lost his vote this year by a refusal to tell his age. Mr. Pingree has surely gained the right to be classed among the new men of the day. New women do not object to telling their age.

As goes Honolulu so goes the United States. This adage has proved true in several of the mock elections held in this city, consequently the Bryan men of the town are supposed to be preparing to bury their election hats, etc.

TRANS-CONTINENTAL ARC.

The Coast and Geodetic Survey completes its labor.

WASHINGTON, Oct. 15.—The Coast and Geodetic Survey has just concluded its labors in the field upon the stupendous geodetic survey undertaken and known as the Transcontinental Arc, and lies along the thirty-ninth parallel of north latitude, extending from ocean to ocean. Its eastern end is on the Atlantic ten miles south of Little Egg Island lighthouse, below Cape May, and its western end is six miles north of Punta Arena lighthouse, on the Pacific, several miles above San Francisco. According to the radius of the thirty-ninth parallel as given by Bessel, the astronomer of Germany, who first calculated the di-

ameters of the earth, and measured the distance from the earth to 61 Cygni, the nearest fixed star, the length of the arc as measured by the Coast and Geodetic Survey, is 11 feet in error, and according to the radius of the same parallel as fixed by Sir Andrew Clarke of Glasgow University, the error is 98.1-2 feet. But General Duffield, superintendent of the survey, declares that these variations from the heretofore established standards show errors in them, and not in the calculation of his scientists.

The value and vastness of the work just accomplished cannot be intelligently appreciated by the unscientific mind. It was inaugurated by the survey officials nearly if not quite a century ago. Progress upon it has been spasmodic, but some work was done every year since the beginning. It has cost the Government about \$1,000,000, but the expenditure is said by the officials to be fully justified by the importance of the project. Russia and China are the only countries on the globe where a base line of anything like equal magnitude is possible, and in neither one is it likely to be surveyed for many years. The longest base line heretofore surveyed was that in India, running north and south, about a thousand miles in length. European scientists have been greatly in-

THAT RISE IN WHEAT.

Chairman Butler Gives His Views on the Subject.

WASHINGTON, Oct. 20.—Senator Marion Butler of North Carolina has given out the following as to the cause of the rise in the prices of wheat:

The jump in wheat is simply another evidence of what the American public has known for years—that is, that the market to a certain extent is, controlled by speculation, and that the price of any product thus controlled can be temporarily lowered or raised at will by those who hold the calls for future delivery.

No one denies today that a few men control the money market, and some of these men have boasted they could produce a panic at pleasure, and we have had sad experience to prove they could make good their boast. The same kind of a combination today, to a certain extent, controls the prices of farm products.

A panic in the money market and the sale of more United States bonds would today clearly be in Bryan's favor, as this unparalleled speculation in wheat will be in his favor. In short, our reports for the last two weeks have been showing an unusual rise in Bryan stock, especially in the grain-producing States of the Central West, and this object lesson of Wall street speculation in their products will cause Bryan stock to more than keep pace with the rise in wheat.

Sales Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than any other proprietary medicine. This is because it possesses greater medicinal merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that

Tells the Story. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy Hood's Sarsaparilla almost to the exclusion of all others.

Customers Want Hood's. "We order Hood's Sarsaparilla in large quantities and it is the only blood purifier which a druggist can buy in large quantities without risk. It is selling very rapidly and customers who buy it once are sure to call for Hood's the next time. We believe Hood's Sarsaparilla must possess true merit in order to retain its popularity. Its sales exceed all similar preparations and its praises are often heard." L. SOMMER & SON, Springfield, Illinois. Thousands of druggists say the same.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

ESCAPED FROM JAIL

Pat Cullen Under Sentence For Murder.

Said to Have Gone to Kauai on Waialeale—Reward Offered For Capture.

The police department was notified shortly before 6 o'clock last night of the escape of Pat Cullen from Oahu jail. Only the most meagre information could be obtained last night, as the officials or guards at the jail declined to give any information, preferring rather to go on a still hunt for the escapee than to give the matter publicity.

Rumor has it that Cullen, who was a trusty at the prison and engaged outside the walls, failed to answer to his name when called at 5 o'clock. How long he had been away when the discovery was made is not known, but it is supposed he had been absent about an hour. Search began at once and within a half hour the prisoner's striped suit was found, showing that he had assistance in his escape.

The clerk at the station was quite as reticent as the guards at the jail. He would say only that a prisoner had escaped. Information was communicated to the Marshal about 7 o'clock that Cullen was seen talking to a well known young man on Sunday for about three hours, and yesterday at 3 p. m. he was again in conversation with him outside the walls.

The Marshal communicated with the young man, but it was impossible to learn last night the nature of the information, if any was secured. It is probable that Cullen will conceal himself somewhere in the mountains until such time as he can escape from the country on an outgoing vessel. This may not be difficult to accomplish, as several instances of the kind have occurred within the last few years.

Cullen was convicted of killing a Chinaman in Koolau about two years ago and was sentenced to imprisonment at hard labor for five years. His conduct at the prison has been faultless, and as a reward for his behavior he was made a trusty and given the usual privileges. His home is in Koolau, but it is not considered probable that he will visit that locality.

There is, as yet, no clew to the whereabouts of Pat Cullen, the man who escaped from Oahu Jail on Tuesday. It was first thought that he took passage on one of the Kauai boats, which left about 5 o'clock, but this is now doubted and preference is given to the belief that he left on the Claudine for Maui, believing he could secure passage for the United States from that point.

On the other hand, a schooner, which usually ties up in the harbor for long stretches of time, has been absent for several days. A water-front man, who expressed the opinion the other day that the schooner had gone out for opium, now thinks there is a connection between Cullen's absence and the departure of the schooner, advancing the idea that Cullen could have gone off in a small boat, after the manner of Arthur Featherstone, two years ago, and joined the schooner somewhere outside. In this case he will probably not be heard from until he reaches a foreign port.

Cullen has plenty of friends here, and what is still better, money, and between the two he will have little difficulty in keeping clear of the police.

Now that it is quite definitely settled that Pat Cullen has gone to Kauai, the question arises, will the police be able to get him. He had twenty hours ahead of the messenger who followed after him, and unless he lingers too long in Hanalei, he has had ample time to reach his wife's stopping place in Kalaupau Valley, and once there, with all the friends he has in the neighborhood, he will be as safe as Koolau.

Persons who came from Kauai yesterday state they heard nothing of his arrival, but as he was not looked for, this is not surprising. With Marshal Brown on that island, Cullen will have little chance of eluding the police, unless, as has been stated, he has gone into the Valley.

It is understood that he had with him a knife and a hatchet when he left the jail, but the latter implement

was found somewhere near his prison clothing; the knife he carried with him, and if he should find his wife, as reported, living with another man, there may be another murder to chronicle.

Yesterday Deputy Marshal Hitchcock put up the following poster, but it is not considered that the small reward offered will tempt anyone to go into the Valley to look for him. Mr. Cullen might become angered at being intruded upon, and when he is angry, the poster says, he is very desperate.

ESCAPED FROM OAHU PRISON November 3, 1896, About 5 P. M.

PATRICK CULLEN, born at Waialeale, Oahu, a half caste, but skin very white, like a foreigner, black hair, grey eyes, 5 feet 9½ inches in height, married, 28 years of age; convicted of Manslaughter, Third Degree, before Circuit Court, First District, 13th day of May, 1895. Full build, rawbone, weighs 156 pounds, stands erect, thin, square face; high forehead, sunken cheeks, prominent cheek bones, medium sharp nose, large mouth, good, sound teeth; medium-sized ears, large, broad chin; thick neck, low, coarse voice; speaks rapidly, jovial temperament, boyish ways, small lump on right arm, small scar on right instep; also, one on left instep; walks with swinging gait and takes long strides; left arm and hand crippled, being short and shriveled; carries crippled hand concealed in pants pocket and sometimes conceals same by folding his arms; when angered, very desperate.

Beard shaved off at time of escape; probably mustache, too.

Fifty Dollars Reward for his capture.

H. R. HITCHCOCK, Deputy Marshal.

WITH THE CHILDREN.

Hawaiian Band Serenades the Kindergartens at Emma Hall.

Perhaps never so much pleasure was ever given by the Hawaiian Band as was made very plainly manifest by the children of the Free Kindergarten at Emma Hall yesterday morning.

At 10:30 Professor Berger called his boys around him, and, taking up a position on the part of the lawn near Beretania street, the band began playing a lively air, while the children, who had already been told what was going to take place, came trooping down, anxious to get as close as possible to the big bass drum. There was a complete desertion of the rooms, both above and below.

The teachers joined hands with the little ones, and went dancing merrily about upon the lawn. In less than two minutes the deserted grounds were transformed into a scene of merriment.

During the first number of the band the children of the Chinese and Portuguese Kindergartens came marching in the gate in charge of their teachers, and soon after some of the children of the private kindergartens made their appearance.

After the first number the band boys received a very pleasant surprise. Several of the children, with small baskets full of bougainvilleas, made of pink carnations and ferns, handed these around in the prettiest possible manner. The remaining flowers were given to the visitors, of whom there were no small number on the grounds. The morning was a pleasant one for the children, and an occasion which will long be remembered by them.

"Those are Them."

Our townsman, Mr. Sisson, has two boys of whom he is justly proud. Ripe from school, these lads are running his coffee plantation in Olua and are doing it to the Queen's taste. Mr. S. says he has to go up every Sunday to see how the coffee is coming on, but after the coffee is in his buggy you hear more about those two boys than you do about the coffee. Lucky Mr. S. Those kind of boys are scarce.—Hilo Tribune.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton, of Sutter Creek, Cal. "This cold left me with a cough and I was expectorating all the time. The Remedy cured me, and I want all my friends when troubled with a cough or cold to use it, for it will do them good." Sold by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

ENGINE SMASH UP

Railroad Accident at Makaweli Plantation.

FIREMAN BADLY CUT ABOUT HEAD

Cab Demolished and Water Tank Off.

Accident Thought to Have Been Caused by Extremely Heavy Rains of Previous Day.

The steamer Kauai brought the news yesterday of an accident on Makaweli plantation, which nearly resulted in the death of four persons.

It was between 6 and 7 o'clock last Wednesday morning, and the smallest engine, in charge of H. Nunn, the engineer, and V. Hermansen, the fireman, had started out toward the camp after the laborers. On the locomotive, together with the engineer and fireman, were the brakeman and J. Ogilvie, the assistant head luma.

Just as the "Horseshoe Curve" was reached, the locomotive jumped the track and turned completely over, almost pinning the men inside the cab. H. Nunn, the engineer, was pretty badly shaken up, but sustained no serious injuries. The brakeman was cut about the wrist, and J. Ogilvie received some pretty severe scratches. The most seriously injured was V. Hermansen, the fireman, who received two ugly cuts in the forehead.

The locomotive was pretty badly used up. The cab was smashed and the water tank was wrenched away completely. Fortunately there were no cars attached to the locomotive, or the smash-up would probably have been very much worse.

The men were got out of the wreck and made comfortable.

J. Scott, the chief engineer, and J. Blackie, the steam plow man, got to the scene as soon as possible, righted the locomotive and put it on the track again.

The accident was thought to have been caused by the heavy rains of the previous day making the track unsteady in certain places.

It was a matter of surprise to the plantation people that the men on the locomotive were not more seriously injured.

NATIVE SAILOR INJURED.

Two Fingers Taken Off While Working Aboard Steamer Kauai. "Punaluu," one of the native sailors on the steamer Kauai, met with a very serious accident between 12 and 1 o'clock yesterday.

The sailors were engaged in landing two large Durham bulls from the Kauai, and "Punaluu" was taking a very active part in the operations.

While the last of the animals was being taken off and the rope was being slackened away, "Punaluu" forgot himself and held on a little too long, his right hand getting caught in the snatch block.

All this was done in the shortest possible time, and before the poor sailor was fully aware of the fact his hand was in a frightfully mutilated condition.

The third finger was simply pulled completely off his hand, and the middle finger was hanging by a piece of flesh and skin alone. "Punaluu" stood the pain very well, and didn't even flinch on the way up to the hospital with Captain Bruhn. Here he was placed immediately in the care of a physician and his injuries attended to.

In Practical Use.

J. J. Williams, the photographer, is the latest possessor of an X ray apparatus, and it was used yesterday to good advantage. The little daughter of a newspaper man in Honolulu got hold of the reserve fund of his salary on Sunday and swallowed it. The child suffered considerably and the family physician recommended taking her to Williams and trying the Roentgen ray. The nickel was discovered lodged at the entrance to the child's stomach. Everybody's friend, Luning, was sent for and after a few minutes conversation with the child she "coughed up."

FROM ENGLISH STANDPOINT.

Press Not Inclined to Believe McKinley's Election Sure.

LONDON, Oct. 24.—The leading weekly papers of London are devoting column after column of space to speculating on the result of the coming election in the United States. The "Spectator," in a leading article under the caption "If Bryan is Elected," refuses to admit that the victory of McKinley is a forgone conclusion, and continues: "The rise in wheat in America will do no harm to Bryan's chances if the

people are convinced that it was brought about by the machinations of the British and Eastern gold bugs. English investors in America ought to prepare for the possible election of Bryan. Financial cataplexis following thereon, involving as it would, over £1,160,000,000 of British investments, would shake the fabric of credit of the world and if the London financial situation should keep its head and wait until the situation cleared, as it ultimately would, all would be well."

The "Speaker" devotes a long article to comments upon the exposition of the United States Congress as a leading question of moment. "McKinley is certain to be elected," the "Speaker" says, "but he is more likely to be a figurehead or a puppet than a really active force." The "Speaker" quotes freely from the cablegrams describing the situation and adds: "Even if the gold party is successful its majority will not be great. We have before us four years of agitation and disquietude."

MARRIAGE CAUSES FEAR.

Organs of Germany Think it Threatens the Dreibund.

BERLIN, Oct. 25.—The Bismarckian newspaper organs in their comments upon the marriage of the Prince of Naples, crown Prince of Italy, to Princess Helene of Montenegro, which took place in Rome yesterday, connect the incident with an English intrigue whose object is to isolate Germany and cause the withdrawal of Italy from the Dreibund.

Maximilian Harden, writing to the "Zukunft," says that the Dreibund is now only an external semblance of an alliance. Germany, he says, cannot reckon upon her allies, as she knows full well that Russia may at any moment give her assent to the scheme of an enemy (France) frantic for revenge. The "Zukunft" in its comments upon the communication traces the present position of Germany back to the policy of the Emperor and his Chancellor, General von Caprivi, of disrupting that of Prince Bismarck and endeavoring to conciliate Russia.

The "Berliner Tageblatt," criticizing Prince Bismarck's communications to the "Hamburger Nachrichten," the ex-Chancellor's personal organ, upon the origin of the entente between Russia and France, charges the Prince with having used his influence to discredit the Government of the Kaiser before the world, and suggests that the time has come when it is imperative that the current disclosures and criticisms adverse to the real interests of Germany should be stopped.

BLAME BICYCLES.

Wheels Caused Reduction in Street Railway Revenues.

ST. LOUIS, Oct. 20.—The immense floor space in the Auditorium is covered with street cars, trucks and all manner of modern vehicles on exhibition at the fifteenth annual convention of the American Street Railway Association, which began this morning. This is the greatest exhibition of its kind ever given in this country. President Littell deprecated the growing disposition of government, both State and municipal, to increase the burden of taxation for street railways. With reference to the bicycle as a means of reduced revenues he said: "No doubt the bicycle has come to stay, and no doubt upon suburban routes its competition has been serious, but it is still to a great extent a novelty, and when the effects of the novelty have worn off and the use of the bicycle is limited to those who habitually make use of it, I think there will still found quite enough people who prefer street cars as a means of locomotion, even in places where the bicycle can be used."

OPPOSES IRELAND.

Catholic Paper Objects to Archbishop's Politics.

CHICAGO, Oct. 22.—In its last issue the New World, the Catholic organ in Chicago, takes issue with Archbishop Ireland on the political question. Taking the Archbishop at his word, the paper considers his utterances as those of a private citizen, and calls attention to the fact of his connection with the Republican party, and says his manifesto is "to be regarded precisely as one of Major McKinley's speeches at Canton." The New World then dissects the Archbishop's letter and opposes its arguments at great length.

The New World is practically under the management of Archbishop Feehan of the Chicago diocese, and reflects his personal views. It is edited by William Dillon, brother of John Dillon, the famous Irish statesman and reformer. Until this issue the paper occupied a neutral position on the silver question.

A thought-weighting machine has been invented by Professor Mosso, an Italian physiologist, the rush of blood to the head turning the scale. The machine is so delicate that it can measure the difference in the exertion needed to read Greek from that required for Latin.

Drink pure water. The Pasteur filter will give it to you. J. A. Hopper is the agent.

The Manufacturers' Shoe Company have a change of ad. today. Read what they say.

E. O. Hall & Son keep "Tropic Oil." This is the oil that plantation engineers are calling for.

Hon. John W. Foster, ex-Secretary of State for the United States, was a caller on President Dole yesterday.

The U. S. S. Adams was decorated with flags yesterday in honor of the birthday of the Emperor of Japan.

R. C. L. Perkins, the naturalist, will leave for Hawaii on the W. G. Hall Friday, to be gone about two months.

The Hawaiian Hardware Company are agents for a sewing machine that does three kinds of work. It's called the Wertheim Triplex.

For sustaining and nourishing the body take "Vin Pasteur," sold by the Hollister Drug Co. They are also agents for "Beeman's Pepsin Gum."

Marshal Brown left for Kauai on the Mikahala yesterday to attend to the appointment of a sheriff of the Garden Isle to succeed L. M. Baldwin.

The many friends of Mrs. Simerson will be glad to know that when the W. G. Hall left Keauhou Monday, her husband, Captain Simerson, left her all but recovered from her recent illness.

In accordance with the requirements of Section 18, Chapter 64 of the Laws of 1896, one awa license for each district of the several Islands will be sold at public auction between the 1st and 7th days of December, 1896.

Postmaster General Oat left on the Claudine for Maui yesterday afternoon. He will make a tour of inspection of the postoffices of that Island. This finished, he will take passage on the W. G. Hall for an inspection of the Kona postoffices.

In a letter from Superintendent Meyers of the leper settlement on Molokai, read before the Board of Health yesterday, that gentleman said that he would have to resign soon, on account of age and consequent inability to get around as he should.

Miss Miriam Kauhane, daughter of Senator Kauhane of Hawaii, was married to Richard Lane, manager of Hanamalo Ranch, Kona, in Keauhou last Saturday, in the presence of the bride's mother, Captain and Mrs. Simerson and others. Rev. Kalaiwoa performed the ceremony.

Mr. Hayne Again.

Julien D. Hayne recently worked the Hotel Knutsford, Salt Lake City, out of \$400 on a New York exchange, payable to Sara Hayne, and indorsed. She claims it was stolen by him, and stopped payment. Hayne's description is: Five feet ten inches tall; dark hair, turning grey; blue eyes, sore; wears spectacles; big mustache; skin very white; sickly appearance; generally wears sack suit, made by Bullock & Jones, San Francisco. Any hotel knowing Hayne's present whereabouts will please wire G. S. Holmes, the Knutsford, Salt Lake City, Utah.—Hotel News.

LEWIS & CO.

SOME People do not care for Breakfast Mush, but those whose faces bear the blush of health are the ones who eat it. We have just added to our stock a large assortment from the Del Monte mills. It includes "Morning Meal" (wheat), Cream Flake (oats), and breakfast oats. We have also whole wheat flour in 10 lb. bags. Good breakfast dishes these and so is a bit of smoked Halibut or Salmon of the sort we sell.

Fresh Cranberries go well as a sauce for turkey; we sell them.

For lunch dainties we have a thousand and one articles, but there is nothing better than Royan's a la Bordelaise, a little sardine packed with tomato sauce and chopped mushrooms. For luncheon these are excellent. Lemarchand's Genuine Sardines are the best obtainable in France; we have less expensive ones that are caught anywhere.

Brilliantine is the best metal polisher known. We have the paste in small tins and the liquid in half pints and larger. You cannot make a mistake in buying this.

The The The Best. Rest. Test.

There are two kinds of sarsaparilla: The best—and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root,—the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sarsaparilla has a record of half a century of cures; a record of many medals and awards—culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best—shut its doors against the rest. That was greater honor than the medal, to be the only Sarsaparilla admitted as an exhibit at the World's Fair. If you want to get the best sarsaparilla of your druggist, here's an infallible rule: Ask for the best and you'll get Ayer's. Ask for Ayer's and you'll get the best.

Hollister Drug Co., Agents.

TEACHERS TAUGHT

Kona Pedagogues Gather For Mutual Instruction.

Officers Elected for Coming Year.
Good Papers Read—Plans for Future.

KAILUA, Hawaii, Nov. 2.—The Kona Teachers' Association met at Kailua on Thursday and Friday of last week, the Vice-President, Mrs. Scott, in the chair. After the roll call, to which fifteen members responded, including some new members, in place of old ones transferred, and the reading of the minutes, new officers were elected for the coming year.

Mrs. M. F. Scott was elected President by ballot over Mr. Mills. The latter was elected Vice-President, and Miss Scott re-elected Secretary. After a little further business, the class-work began. Miss Scott read two illustrative lessons on the teaching of reading from the Quincy methods. Mr. Mills read a paper on the subject of nature study. In the afternoon Miss Scott had a paper on the subject of teaching arithmetic more rapidly than it is now taught. This was followed by general discussion of the mental processes of the child in arithmetic. Mr. Ain carried the tonic soil fa class into the third step.

The second day's proceedings began with Mrs. Scott's able papers on the general points to be observed in teaching reading in all grades. She outlined several excellent plans, which the members present were not slow in availing themselves of, as they were observed copying the plans written on the boards and making rapid notes of what she said.

Miss Scott followed with another illustrative lesson from Quincy methods. Mr. Mills gave a very good practical nature study lesson on the guava. The value of the lessons on the chart was discussed for fifteen minutes. Some were considered good and helpful, some were discussed and made lessons calculated to interest the child, substituted in place of those recommended to be discarded.

Mr. Ain took up the study of time in third step tonic soil fa.

At the opening of the afternoon session a committee was formed to decide on plans of work for this year and the next meeting. Two reading circles were arranged, one for South Kona, to meet at Napoopoo, the other for North Kona, to meet at Holualoa School. The book and subject chosen were Page's "Theory and Practice" and "Nature Study." The circles are to meet every two weeks. The remainder of the time was spent in telling what each had found helpful to him or her at the Summer School. Several native teachers received excellent thoughts, and told them very well. The meeting adjourned till January.

FLORENCE J. SCOTT,
Secretary.

WATSON WILL NOT TALK.

Has Made His Last Speech and Will Await Results.

ATLANTA, Oct. 25.—Mr. Thomas E. Watson passed through here last night on his way to his home at Thomson, Ga. He was asked what he thought of the failure of his party in the State to effect fusion.

"I have nothing to say," he replied in a hoarse voice. Please do not ask me anything. I am on my way to the train and must ask you to excuse me."

Mr. Watson rushed on. He boarded the Georgia train and left for home. The campaign of Mr. Watson has come to an end. He will make no more speeches, and the only utterances coming from him will be letters of acceptance.

Mr. Reed of the National Committee has a copy of the letter of acceptance. He was on the point of giving it out Friday, but further consideration made it advisable for him to hold it a while longer. Unless the missing letter turns up a copy may be made public in a day or two.

Mr. Reed was asked if he thought the letter of Watson very virulent.

"It might be called warm," he said with a smile.

Since the withdrawal of the Populist electors the report has once more been circulated that Watson will retire. Speaking for Mr. Watson, Mr. Reed gave this report an emphatic denial.

GOLD FOR CHINA.

Custom Duties Must Hereafter be Paid in Yellow Coin.

WASHINGTON, Oct. 22.—Li Hung Chang, when he visited Washington, left with the Chinese Legation a memorandum, printed in English, in which it is stated that changes in the customs rates make duties payable in gold or its equivalent, instead of silver taels. Li Hung Chang stated that silver taels were authorized to be used in paying custom duties in Tao Kwang's time, and continued without change until the dynasty of Hien Fung. Since then the value of silver has declined, he says, and in justice to China, which has now established international relations, "both the necessities of the day and

consideration of what is fair and right demand that the original value of the customs tael be re-enumerated, and that the value of silver at which China consented to collect duties, viz., three taels to the pound, be observed and adhered to.

Official Calls.

Charge d' Affaires for Portugal, A. de Souza Canavarro, called on W. O. Smith, Minister of Foreign Affairs and Interior, yesterday morning. At 2 p. m. Mons. Volsson, Commissioner and Consul General for France, called on the same minister. On both occasions the guards paraded.

The three-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved his little boy's life. He is in the drug business, a member of the firm of Johnson Bros. of that place; and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by all druggists and dealers, Benson, Smith & Co., agents for the Hawaiian Islands.

TROPIC OIL

For Engines and Cylinders

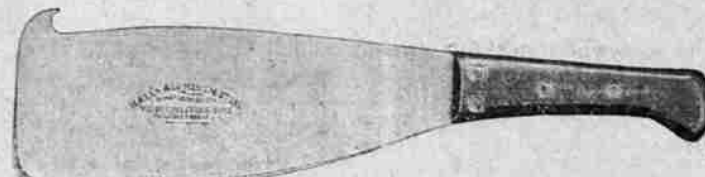

THIS IS THE OIL that Plantation Engineers are calling for.

19 Sugar Mills

Are using the TROPIC Engine and Cylinder Oils, and we have yet to hear of a case where it has not given perfect satisfaction.

The TROPIC is a pure, unadulterated lubricator, and is fully warranted to be of the highest possible grade and to give first-class satisfaction in every particular. It is made at one of the best Oil Refineries in Cleveland, Ohio, and is shipped direct to Honolulu without passing through the hands of any Middle-men, and we sell in original packages, barrels or cases. The great success that the TROPIC OIL has met with, during the past season, ought certainly to recommend it for use in every Sugar Mill.

We have just received ex Bark "Edward May" a fresh supply from Cleveland, and can supply immediately, or at any time specified, any quantity required.

HALL'S ALUMINUM CANE KNIVES

Are being used on TWENTY-SEVEN PLANTATIONS. They are made by H. Disston & Sons of Philadelphia, and are acknowledged by them to be the best knives they ever turned out. They are made of Aluminum Steel, with Apple-wood handles, secured with four rivets, and hang easier in the hand, when in use, than any other Cane Knives. The fact that the cane cutters prefer these knives to all others, because they do not tire their hands, and they can do much more work in a day, is sufficient guarantee of their superiority.

We have just received over a hundred dozen from the Factory, and can supply Plantations now or at any time during the coming season. Plantations that have not yet tried them, should send for a sample lot, and give them a trial. We have them with the hook and without.

BY ALL CHEMISTS and PATENT MEDICINE VENDORS THROUGHOUT THE WORLD. Proprietors, THE LINCOLN AND MIDLAND COUNTIES DRUG COMPANY, LINCOLN, ENGLAND.

Caution.—Ask for Clarke's Blood Mixture, and beware of worthless imitations or substitutes.

KONA HEARD FROM

Business is Brisk 'Mong Coffee Planters.

Work on Government Road Goes on Fairly Well—Laborers Ask More Money.

KAILUA, Hawaii, Nov. 2.—"The voice of Kona has not been heard in the land" for some time, but it speaks again.

Business of all kinds is brisk here. Every tradesman willing to work, and every laborer can find employment. All the mules and strong horses with wagons and dump carts are engaged either in hauling or at work upon the roads. The coffee planters are as busy as possible harvesting their crops. The facilities for hulling and drying are as yet very crude, and along the upper Government road all through the district can be seen hand pulpers at work and board drying trays full of coffee drying in the sun. Most planters are at a disadvantage in the matter of water for washing the coffee after it is pulped. Doubtless another year will see them with the means of handling their crops with better facility.

Had the Hawaiian Coffee and Tea Company's mill been on the road instead of half way down to the beach, and very inaccessible, many of the planters would have sent their coffee to them to be prepared for market. As it is, some have already done so.

The Hawaiian Coffee and Tea Company is shipping the crop by every steamer. It is turning out well. One man is shipping his in the cherry, half dried. This is unfortunate, as the coffee packed in bags, unless milled immediately on arrival in Honolulu, will soon mildew.

George McDougall Sr. contemplates the erection of a coffee mill at Kailua. One is needed there badly, and the man of capital who gets there first has the field to himself for a few years at least.

Work is progressing on the new Government road, but at rather a slow pace. M. F. Scott is building half a mile near Houalua, and Mr. Wait is overseeing a mile at the plantation entrance. Owing to a misunderstanding about wages, the gang of men at work for Mr. Wait struck, and his work, which was going along finely, has been delayed. They claimed they had been promised \$1 a day, whereas Mr. Bruner would not pay more than 75 cents. A new force has been set to work at Mr. Bruner's terms, though there does not appear the same amount of brisk activity as before the strike.

The work is going on at the Kealekua end, near Dr. Lindley's and beyond Mr. Paris'.

A wagon and three mules were landed from the steamer Hall last trip for use at the new store of Cockburn & Lindsay, Kailua. Mr. Cockburn and family are expected to take up their residence in Kona this week.

General satisfaction is expressed in Kona at the new appointment to the judgeship.

C. D. Miller and family left Kailua yesterday for their new home at Hoonaka.

Miss Althea F. Beard of Honolulu and her father from California came up last steamer to look after the interests of Miss Beard, who bought land last summer and set laborers to work clearing it and planting a coffee nursery. They return to the city by the Hall.

A Brave Deed.

While a number of children were on Mokuola last Saturday enjoying the delights of an afternoon bath, Mrs. W. Chalmers little girl came near being drowned but for the timely assistance of little Etta, a daughter of Mr. and Mrs. A. B. Loebenstein. The children were bathing in the larger inlet on the island, which is usually used by grown up people. It is supposed the undertow was a little too strong for Mrs. Chalmers' little girl and she went under and began drifting seawards. Etta, who perceived this, jumped into the water and diving under swam for the location where the child was. The brave little girl came under the drowning child and raised her up. Miss Minna Maby jumped in also and helped Etta bring the almost drowned child ashore. The child is entirely recovered.—Hilo Tribune.

HOW TO CURE BILIOUS COLIC.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

SURE OF SUCCESS.

Bryan and Manager Jones Have no Doubts as to Result.

NEW YORK, Oct. 24.—To the Herald correspondent at Quincy, Ill., today Mr. Bryan said that he was already as good as elected.

"I do not care to go into details," said Mr. Bryan, "or to take up the separate States, but my confidence in the result is increasing. I will have a considerable majority in the electoral college. It will not be a close election, in my opinion."

Mr. Bryan modified his refusal to discuss the separate States to the extent of placing the solid Pacific States with

the solid South as safe for the Chicago ticket. He called attention to the narrow margin by which the Republicans were claiming Oregon, while he laughed at the suggestion that there could be any doubt of the electoral vote of California being cast for Bryan and Sewall.

Mr. Bryan placed his number of electoral votes in the neighborhood of 300. CHICAGO, Oct. 24.—To W. R. Hearst of the Examiner, San Francisco: The outlook at the end of the last week but one of the campaign is more favorable than it has ever been. Reports from all sections bring the most encouraging news. Our friends are filled with confidence and enthusiasm; they are full of pluck and fight. I have no doubt about the success of the Democratic candidate. The news from Indiana, Michigan and Minnesota is especially favorable, and the same is true of Iowa, Ohio, Kentucky and West Virginia. In every section of the country the condition has improved within the past week, and we no longer have any doubt about the election of Mr. Bryan by an overwhelming majority.

JAMES K. JONES.

An American lad's idea of Free Trade and Protection: "It's something like this, as I understand it. If I have some one outside of the family to make my shirts, I get the shirts and they get the money; if I hire my sister to make my shirts, I get the shirts and she gets the money, and so we keep the money in the family. And then you see," he added, "if I get hard up, we've got the money at home, and I can borrow it from my sister."

It's a Far Cry

FROM FOREIGN LANDS TO

Chicago, U. S. A.

But no matter where you live, we are anxious to do business with you in Clothing, Shoes, Dry Goods, Watches, Jewelry, Sewing Machines, Harness, Saddles, Hardware, Tools, Guns, Revolvers, Ammunition, Bicycles, Agricultural Implements, Vehicles of all kinds, Furniture, Books on every subject. We handle only dependable goods—no trash.

We believe we can send to any clime, goods of any kind, perfect in quality, at lower prices, laid down, than the residents thereof can obtain them anywhere else. Our belief is founded on a quarter century's experience. To acquaint you with our facilities we will send you, or any other foreign resident, free of all charges, our "BUYERS' GUIDE," a 2½ pound book, 700 pages, 13,000 illustrations, 40,000 descriptions—it is unique, useful, valuable—and also our "HAND BOOK FOR FOREIGN BUYERS," which contains all necessary information to put you in close touch with our marvelous methods. WAVERLEY BLOCK.

DR. J. COLLIS BROWNE'S CHLORODYNE.

Original and Only Genuine.

COUGHS, COLDS, ASTHMA, BRONCHITIS

Dr. J. Collins Browne's Chlorodyne. Vice-Chancellor SIR W. PAGE WOOD stated publicly in court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE, that the whole story of the defendant, Freeman, was a liberally untrue, and he regretted to say it had been sworn to. See The Times, July 13, 1864.

Dr. J. Collins Browne's Chlorodyne is a liquid medicine which assuages PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. It is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, report that it ACTS as a CHARM, one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

Dr. J. Collins Browne's Chlorodyne is the TRUE PALLIATIVE in Neuralgia, Gout, Cancer, Toothache, Rheumatism.

Dr. J. Collins Browne's Chlorodyne rapidly cuts short all attacks of Epilepsy, Spasms, Colic, Palpitation, Hysteria.

Important Caution.—The immense sale of this Remedy has given rise to many Unscrupulous Imitations.

N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, Dr. J. Collins Browne. Sold in bottles 1s. 1d., 2s. 6d. and 4s. 6d., by all chemists.

Sole Manufacturers, J. T. DAVENPORT, 33 Great Russell St. London, W. C.

CLARKE, Commander.

Will leave Honolulu at 10 o'clock a. m., touching at Lahaina, Maui Bay and Makena the same day; Mahukona, Kawaihae and Laupaho the following day, arriving in Hilo the same afternoon.

LEAVE HONOLULU.

Tuesday Nov. 10
Friday Nov. 20
Tuesday Dec. 1
Friday Dec. 11
Tuesday Dec. 22

Will call at Pohniki, Puna, on trips marked *

Returning, will leave Hilo at 8 o'clock a. m., touching at Lapauhoeoe, Mahukona and Kawaihae same day; Makena, Maui Bay and Lahaina the following day, arriving at Honolulu the afternoon of Tuesdays and Fridays.

ARRIVE HONOLULU.

Friday Nov. 6
Tuesday Nov. 17
Saturday Nov. 23
Tuesday Dec. 3
Friday Dec. 13
Tuesday Dec. 29

Will call at Pohniki, Puna, on the second trip of each month, arriving there on the morning of the day of sailing from Hilo to Honolulu.

The popular route to the volcano is via Hilo. A good carriage road the entire distance.

Round-trip Tickets, covering all expenses, \$50.

S. S. Claudine,

CAMERON, Commander.

Will leave Honolulu Tuesdays at 5 o'clock p. m., touching at Kahului, Hanalei, Hamoa and Kipahulu, Maui. Returning, arrives at Honolulu Sunday mornings.

Will call at Nau, Kaupo, once each month.

No freight will be received after 4 p. m. on day of sailing.

This company reserves the right to make changes in the time of departure and arrival of its steamers WITHOUT NOTICE, and it will not be responsible for any consequences arising therefrom.

Consignees must be at the landings to receive their freight. This company will not hold itself responsible for freight after it has been landed.

Live stock received only at owner's risk.

This company will not be responsible for money or valuables of passengers unless placed in the care of purser.

Passengers are requested to purchase tickets before embarking. Those failing to do so will be subject to an additional charge of twenty-five per cent.

C. L. WIGHT, President. S. B. ROSE, Secretary.

Capt. J. A. King, Port Superintendent, Honolulu, H. I., Jan. 1, 1896.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plovers, Railways and Hoists; also furnish light and power for a radius of from 15 to 25 miles.

Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

THEO. HOFFMAN, Manager.

JAPANESE POSTAGE STAMPS.

Every one who sends me 100 good stamps of his land will receive 100 stamps, in 20 varieties, from Japan.

K. TODA: Bingo Mitsunoshio, Japan. 1795-3m

WHARF AND WAVE.

AT DIAMOND HEAD SIGNAL STATION, Nov. 5.—At 10 p. m.—Weather is clear; wind light, northeast.

The bell buoy was brought in for repairs yesterday afternoon.

The steamer Kaula will sail for Makawell with a load of coal this afternoon.

The Kaula brought news yesterday that 2½ inches of rain fell in Makawell last Tuesday.

The bark Gainesborough was put up at auction yesterday and sold to S. C. Allen for \$500.

The work of repairing the yacht Spray, recently bought by Clarence Macfarlane, is being done in her old position in the vicinity of the boat landing, where Mr. Ball, the boat builder, will continue his work of making the yacht "look like new." It is said that she will be the possessor of the finest cabin of any yacht in the harbor.

Swift Trip From Yokohama.

The British ship Andelana arrived from Yokohama on October 21, only 26 days out. This is the best trip a sailing vessel has made from Yokohama in many months. The Andelana is noted for her speed. In 1891 she made the quickest sailing voyage from Hong Kong to San Francisco ever recorded, doing the distance in thirty-one days.—San Francisco Chronicle.

Big British Cruiser Launched.

GLASGOW, Oct. 21.—The new British cruiser Diadem was successfully launched today. She is a ship of 11,000 tons, 416 feet long, and the contracts for her construction require her to show a rate of speed equal to twenty and one-quarter knots an hour. The armament of the Diadem will enable her to fire 1,000 pounds of shot per minute.

A New British Ship.

The latest important addition to the British navy is the Caesar, which has just been launched. Its principal dimensions are: Length between perpendiculars, 290 feet; extreme breadth, 75 feet; mean draught of water, 27 feet 6 inches; displacement when fully equipped, about 15,000 tons. She will be fitted with twin screws, each driven by an independent set of vertical triple expansion engines, capable of working up to a total of 12,000 horse power for the two sets of engines. With this horse power a speed of about 18 knots will be realized. Provision is made for stowing 2,500 tons.

Her protective armor varies in thickness from 6 inches to 14 inches. It consists of steel carbonized by the Harvey process. Two masts will be fitted with fighting tops and carrying 3-pounder quick-firing guns. Eighteen boats will be carried, including four steamboats. Three of this latter, fitted for discharging 14-inch Whitehead torpedoes, will be capable of acting independently of the ship for torpedo attack.

The main armament will consist of four 12-inch breech-loading guns, twelve 6-inch quick-firing guns and sixteen 12-pounder 12-bundred-weight quick-firing guns. The armament will be completed by twelve 3-pounder quick-firing guns in the fighting tops of the masts, two 12-pounder 8-bundred-weight quick-firing boat and field guns, and eight 45-calibre Maxim guns. Twenty-two torpedoes will be carried, which can be fired from four submerged tubes, two forward and two aft, and one above water tube at the stern. Upon completion the Caesar will be commissioned with a complement of 758 officers and men.

NOW TO SETTLE IT.

Report of Another Understanding Reached on Venezuela.

WASHINGTON, Oct. 21.—Sir Julian Pauncefote, British Ambassador, called at the State Department today for the purpose of presenting to Secretary Olney certain propositions regarding the Venezuelan controversy. It being Cabinet day, Sir Julian and the Secretary had only ten minutes' conference. The Ambassador carried a large roll of documents which he left for the perusal of the secretary. The bulk of the documents seemed to be data respecting the extent of British individual interest in the disputed territory, information which Secretary Olney has all along sought from the British side. If this troublesome phase of the boundary dispute can be adjusted satisfactorily there is little doubt that the main question in dispute can be speedily settled.

It can be stated authoritatively that the proposed Sir Julian Pauncefote is authorized by the British Foreign Office to present to the State Department embracing both the Venezuelan boundary question and the question of a general treaty between England and the United States, whereby all future disputes will be submitted to arbitration. The nature of the proposal is such that the dispute over Venezuela is much nearer final solution than at any time since the trouble began. It can be stated positively that no notes or negotiations of any kind have passed between Secretary Olney and

Lord Salisbury since June 22d last, although reports to the contrary have appeared. The negotiations will be resumed at the point where they were suspended at that date.

Mr. Olney's final proposal on June 22d, so far as Venezuela was concerned, was that it should be embraced in a treaty of arbitration separate from the general treaty of arbitration. He insisted, however, that Venezuelan arbitration was a prerequisite to any general arbitration and that the arbitration should be final and embrace all the territory in dispute, settled as well as unsettled. Great Britain being opposed to including the settled districts.

In view of the statement of the Foreign Office that the proposals about to be made give hope of a final settlement, it seems likely that Lord Salisbury's answer to Mr. Olney's propositions of June 22d will be favorable, or in the line of compromising the differences of the details.

The call of Sir Julian Pauncefote on Secretary Olney today was one of courtesy to present his respects after his arrival, and the question of arbitration was not taken up except that arrangements were made for a formal meeting at the earliest moment Olney might suggest.

During the last fifty years Great Britain has been at war more frequently than any other nation. The total number is forty wars for fifty years.

BY AUTHORITY.

AUCTION SALE OF AWA LICENSES.

In accordance with the requirements of Section 18, Chapter 64 of the Laws of 1896, one awa license for each District of the several Islands will be sold at Public Auction, between the first and seventh day of December, 1896.

Each license will be for the term of one year from the 1st day of January, 1897.

The upset price will be as follows:

For the District of Honolulu	\$1,000
For the District of Hilo	500
For the District of Waialuku	500
For the District of Lahaina	250
For each other District	100

The licenses for the several Districts on the Island of Oahu, consisting of Honolulu, Koolau, Koolauloa, Waialua and Ewa and Waianae, will be sold at the front entrance of the Executive Building on Thursday, the 3d day of December, 1896, at 12 o'clock noon.

Those for the Islands of Hawaii, Maui and Kaula will be sold in their respective Districts, upon such day and date, within the limit of time fixed by law, as shall be designated by the several Sheriffs or their Deputies. Due notice of date and place of sale will be given by posters in each of the said Districts.

A cash deposit of twenty-five per cent of the amount of the bid will be required upon the fall of the hammer; said deposit to be forfeited to the Government if the full amount of the bid is not paid within five days from the day of sale.

SALE OF PUBLIC LANDS.

On Saturday, November 21st next, at 12 o'clock noon, at front entrance of Judiciary Building, Honolulu, will be sold a small lot of land at Waialua, Koolau, Oahu—containing 32-100 acre. This land is located makai of the Government road, adjoining land of Mr. A. Cullen, and is good rice land.

Terms—Cash, U. S. Gold.
Upset Price—\$100.

Also at the same time and place, will be sold lot of coffee land at Kau-

ai, Maui, known as Lot No. 7, Public Lands Map No. 1, containing 38.50-100 acres. Upset price, \$115.50.

This land will be sold subject to the following terms and conditions:

One-fourth purchase price, cash, remainder in equal instalments in one, two and three years, with interest at rate of seven (7) per cent. per annum.

Cultivation and improvements to begin within first year and continued during the two succeeding years. At end of third year, if ten per cent. of land is under cultivation, the land fenced, and all conditions complied with, purchaser will receive fee simple title.

Full particulars and plans of above lands may be obtained on application at the public lands office Honolulu.

J. F. BROWN,
Agent of Public Lands.
Public Lands Office, Honolulu, Oct. 24th, 1896.
1896-td

SALE OF LAND AT OLAA.

On Monday, November 23, 1896, at 12 o'clock noon, at the office of the sub-agent, Hilo, will be sold Olua Lot No. 348 on the volcano road, containing forty-seven acres, a little more or less. Upset price, \$10.00 per acre.

Land to be sold under the following general terms and conditions:

One-fourth of purchase price to be paid on day of sale and remainder in equal instalments in one, two and three years, with interest at rate of 6 per cent. per annum.

Cultivation and improvements to be begun during the first year and continue during succeeding two years. Twenty-five (25) per cent. of the land to be put under cultivation and other improvements of the value of \$200 to be made before the end of the third year. At end of third year or sooner, if full amount of cultivation and improvement has been made with full payment of Purchase Price, and all conditions to such date fulfilled, a Patent Grant for the premises will issue.

Full particulars can be obtained at the Public Lands Office, Honolulu, or at the office of the Sub-Agent in Hilo.

1896-td

CIRCUIT COURT, FIRST CIRCUIT, of the Hawaiian Islands. In Probate. In the matter of the estate of W. James Smith, late of Honolulu, Oahu, deceased.

The petition and accounts of the Administrator of the estate of said deceased, wherein he asks that his accounts be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him from all further responsibility as such Administrator.

It is ordered that Friday, the 11th day of December, A. D. 1896, at ten o'clock a. m., at Chambers, in the Court House, at Honolulu, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property.

Honolulu, Nov. 5th, 1896.
By the Court:
1896F-3ta GEORGE LUCAS, Clerk.

IN THE CIRCUIT COURT, FIRST CIRCUIT, of the Hawaiian Islands. In Probate.

In the matter of the Estate of Edward S. Coffin, late of Honolulu, Oahu, deceased.

The petition and accounts of the Administrator of the estate of said deceased, wherein he asks that his accounts be examined and approved, and that a final order be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him from all further responsibility as such Administrator.

It is ordered, that Monday, the 7th day of December, A. D. 1896, at ten o'clock a. m., at Chambers, in the Court House, at Honolulu, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted.

Honolulu, November 4th, 1896.
By the Court:
1896F-3ta P. D. KELLETT, JR., Clerk.

IN THE CIRCUIT COURT, FIRST CIRCUIT, of the Hawaiian Islands. In Probate. In the matter of the Estate of Julia K. Campbell, late of Waihee, Maui, deceased, intestate.

Petition having been filed by Wm. H. C. Campbell, widower of said intestate, praying that letters of administration upon said estate be issued to William O. Smith, notice is hereby given that MONDAY, the 23rd day of November, A. D. 1896, at
